Principles of Educational Events

Global Neuro welcomes you

On January 1, 2018, AONeuro became Global Neuro for the purpose of broadening our geographical reach and for the opportunity to work with multiple partners. Our new foundation is incorporated in Switzerland, and is ready to serve you to improve the educational and practical experiences in patient care and outcomes.

We offer educational events across the world, with rigorously prepared and evaluated curricula, in multiple cultural and educational formats. Global Neuro's educational offerings include lecture presentations, interactive case discussions, small group discussions, practical exercises, simulation exercises, and online education. Global Neuro strives to increasingly collaborate with regional, national, and international societies and organizations to deliver symposia and courses at congresses and annual meetings. These partnerships enable us to provide the best formats possible.

While our initial educational efforts began with neurosurgeons, we are increasingly collaborating with neurologists, neurointensivists, neuroanesthesiologists, neuroradiologists, and other neuro professionals to provide comprehensive education and program development opportunities. Medicine, neurological care, and recovery are too complex to depend upon a single discipline. As such, collaboration is required to be able to make the greatest impact in our patients progress and outcomes.

We hope this program meets your expectations, as it is based on continuous development, study, evaluation, and discussion. Please let us know if you have ideas or suggestions for how we can enhance your learning and educational experience.

Please join our network of professionals as we work together to improve the results in neuro care and rehabilitation for all our patients.

Warm regards,

Paul N Manson
Chairman Global Neuro Foundation

Course description

This half-day course covers the current best strategies and considerations of prehospital, emergency, ICU, and surgical management of Neurotrauma patients in adults and children.

It explores the TBI management protocols, their implementation, and results in different regions.

The content is delivered using multiple methods: Comprehensive lectures concentrate on core material understanding. The case presentations deepen this knowledge and enrich the discussion in trauma management. Case-based discussions link the lecture material and practical skills with the problems encountered in clinical practice.

Participants will be able to interact throughout the course.

Target participants

The Global Neuro Course—Neurotrauma at the XVII World Congress of Neurosurgery WFNS 2022 has been developed for neurosurgeons and other health care providers, including residents, dedicated to the integral management of Neurotrauma, as well as complex and interdisciplinary patient care

Learning objectives

By completing this course, participants will be better able to.

- Describe and discuss latest trends in the management of TBI.
- Analyze details related to education, prehospital, emergency, intensive, surgical, and pediatric care to improve patient outcomes.
- Apply surgical techniques for management of neurotrauma and determine their advantages and disadvantages

Chairpersons

Wellington Paiva
University of Sao Paulo
Sao Paulo, Brazil

Andres M Rubiano
El Bosque University
Bogota, Colombia

Special guest

Andrew Reisner	Children's Healthcare of Atlanta	Atlanta, United States
-----------------------	----------------------------------	------------------------

International Faculty

David Adelson	Phoenix Children's Hospital	Phoenix, United States
----------------------	-----------------------------	------------------------

Robson Amorim	Hospital Univ. Getulio Vargas	Manaus, Brazil
----------------------	-------------------------------	----------------

Ernest Barthélemy	University of California	San Francisco, United States
--------------------------	--------------------------	------------------------------

Anthony Figaji	University of Cape Town	Cape Town, South Africa
-----------------------	-------------------------	-------------------------

Corrado Iaccarino	University of Modena and Reggio Emilia	Modena, Italy
--------------------------	--	---------------

Tariq Khan	Northwest School of Medicine	Peshawar, Pakistan

Sunday, March 13, 2022

TIME	AGENDA	FACULTY
07:00 – 07:30	Registration check-in and material	Ximena Rodriguez
07:30 – 08:00	Introduction and Objectives	Andrew Reisner
08:00 – 08:20	Global Neurotrauma MAP: Providers & Resources	Andres Rubiano
08:20 – 08:40	Adult Prehospital Management of TBI: An Update	Ernest Barthelemy
08:40 – 09:00	Adult Emergency Management of TBI: An Update	Wellingson Paiva
09:00 – 09:20	Adult ICU Management of TBI: An Update	Gene Sung
09:20 – 09:40	Adult Surgical Management of TBI: An Update	Corrado Iacarino
09:40 – 10:00	Coffee break	All
10:00 – 10:20	Pediatric Neurotrauma: ICU Management	Anthony Figaji
10:20 – 10:40	Pediatric Neurotrauma: Surgical Management	David Adelson
10:40 – 11:20	PANEL INTERACTIVE CASE PRESENTATIONS	
	Case 1: Advanced Medical Management Neurotrauma:	Kiwon Lee
10:40 – 10:55	Presentation	K. Lee
10:55 – 11:00	Conclusion	A. Rubiano
	Case 2: Complicated Surgical Case Neurotrauma	Andres Rubiano
11:00 – 11:15	Presentation	R. Amorim
11:15 – 11:20	Conclusion	A. Rubiano
11:20 – 11:40	Protocols of Care in TBI	Tariq Khan
11:40 – 12:00	Advanced Management Protocols in TBI	Andres Rubiano
12:00 – 12:20	Closing remarks and end of course	Andres Rubiano Wellingson Paiva

Global Neuro funding sources

Unrestricted educational grants from different sources are collected and pooled together centrally or for specific events by the Global Neuro Foundation. All events are planned and scheduled by local and regional Global Neuro surgeon groups based on local needs assessment. We rely on industrial/commercial partners for in-kind support to run simulations/skills training if educationally needed.

Event organization compliance

In certain countries where Global Neuro has no office but offers educational events, the Global Neuro cooperates with third-party companies to conduct local organization and logistics, as well as to communicate with participants in the local language. In these cases, the Global Neuro Foundation has put rules and guidelines in place (Letter of Secondment, Global Neuro Foundation—Principles of Educational Events) to ensure that this cooperation has no impact on the curricula, scientific program, or faculty selection.

General information

Event fee

There is no additional fee to attend the course, but you must be registered for the XVII World Congress of Neurosurgery WFNS 2022 in Bogota, Colombia.

We highly recommend you register for the course as early as possible as there are limited seats available.

Included in the course fee are course material, a coffee break, and the course certificate.

Registration

Please click on the registration link below to register for the Global Neuro Course—Neurotrauma: **Limited seats available.**

<https://globalneuro.org/EN/education/event-detail/38.html>

To register to the XVII World Congress of Neurosurgery WFNS 2022 please click here: [WFNS2022 | Registration Form \(eventsair.com\)](#)

Course certificate

The course certificates can only be provided if the participant attends the entire event (100%) and will be sent to your email after you completed the course evaluation.

Evaluation guidelines

All Global Neuro events apply the same evaluation process, either online (pre- and post-event evaluation) or/and onsite by paper and pencil questionnaires. This helps Global Neuro to ensure that we continue to meet your training needs.

Login to your Global Neuro dashboard to complete the online evaluations.

<https://globalneuro.org/EN/dashboard.html>

You must complete both evaluations to receive the Certificate for your participation.

Dress code

Business Casual.

No insurance

The event organization does not take out insurance to cover any individual against accidents, theft, or other risks.

Security

Security checks may be conducted at the entrance of the building. Wearing of a name tag is compulsory during lectures, practical exercises, and group discussions.

Mobile phone use

Use of mobile phones is not allowed in the lecture halls and in other rooms during educational activities. Please be considerate to others by turning off your mobile phone.

Intellectual property

Event materials, presentations, and case studies are the intellectual property of the event faculty. All rights are reserved. Check hazards and legal restrictions on www.globalneuro.org/legal

Recording, photographing, or copying of lectures, practical exercises, case discussions, or any course materials is strictly forbidden. Participants violating intellectual property will be dismissed. The Global Neuro Foundation reserves the right to film, photograph, and audio record during their events. Participants must understand that in this context they may appear in these recorded materials. The Global Neuro Foundation assumes participants agree that these recorded materials may be used for Global Neuro marketing and other purposes and made available to the public

Global Neuro Foundation—Principles of Educational Events

1) Academic independence

Development of all curricula, design of scientific event programs, and selection of faculty are the sole responsibilities of volunteer surgeons from the Global Neuro network. All education is planned based on needs assessment data, designed and evaluated using concepts and evidence from the most current medical education research, and involving the expertise of the Global Neuro Education Institute (www.globalneuro.org). Industry participation is not allowed during the entire curriculum development and planning process to ensure academic independence and to keep content free from bias.

2) Compliance to accreditation and industry codes

All planning, organization, and execution of educational activities follow existing codes for accreditation of high-quality education:

- Accreditation Criteria of the Accreditation Council for Continuing Medical Education, USA (www.accme.org)
- ACCME Standards for Commercial Support: Standards to Ensure Independence in CME Activities (www.accme.org)
- Criteria for Accreditation of Live Educational Events of the European Accreditation

Council for Continuing Medical Education (www.uems.eu)

- Events that receive direct or indirect unrestricted educational grants or in-kind support from industry also follow the ethical codes of the medical industry, such as:
- Eucomed Guidelines on Interactions with Healthcare Professionals (www.medtecheurope.org)
- AdvaMed Code of Ethics on Interactions with Health Care Professionals (www.advamed.org)
- Mecomed Guidelines on Interactions with Healthcare Professionals (www.mecomed.org)

3) Branding and advertising

No industry logos or advertising (with the exception of the Global Neuro Foundation) are permitted in the area where educational activities take place.

Sponsors providing financial or in-kind support are allowed to have a promotional booth or run activities outside the educational area with approval from the event chairperson.

4) Personnel

Industry staff are not allowed to interfere with the educational content or engage in educational activities during the event.
